TOTAL PROJECT
BUDGET:

4.18 M €

INCLUDING AN
ERDF BUDGET OF:

2.51 M €

This 5 kW solar photovoltaic installation is part of the University of Portsmouth's Solar Living Laboratory, a research and training facility that has been built through the University's participation in the Interreg 2 Seas SOLARISE project. Along with a smart 13.5 kWh Tesla Powerwall 2 battery, these solar panels allow our Eco-House, which you can see in the picture, to be 100% electrically self-sufficient.
